18 Tax Changes from Alimony	0	0	141	(90)
19 Guideline Support		1,166		1,091

Comments:

In case 1, there is not sufficient cash to meet the cash needs of both parties. In Case 2, father claims child dependency exemptions and under 17 child tax credit because father saves more tax. Alimony is structured to split the tax savings from the exemptions so that each party is able to meet their budget needs. Child support is automatically recomputed each time you change the alimony amount.
