21 Noncustodial Direct Payment of Insurance	(\$1,000)		
22 Total Child Support Payment	\$24,875		
23 Monthly Amount	\$2,073		

Comments:

Noncustodial parent (father) pays 100% of health ins. for children. Child Support is based on \$130,000 of income in this case to allow spousal support to be used. Spousal support (alimony) is used to allow parties to share in tax savings from alimony (see Support Summary attached) and both parties have more after-tax cash than with child support based on all income.
