SUPPLEMENTAL WORKSHEETS**

Calculation Date: Jun 08, 2009

Case No.: 2009-0765

WORKSHEET S-1 (PARENTING TIME FOR JOINT MINOR CHILD(REN))

Please note: The number of overnights must be an average of 2 consecutive years.

		Column 1	Column 2	Column 3						
	Birth Date	John Jones # of Overnights	Mary Jones # of Overnights	Combined						
1.	Edward Jones	150.0	215.0							
2.	Melissa Jones	150.0	215.0							
3.		0.0	0.0							
4.		0.0	0.0							
5.		0.0	0.0							
6.		0.0	0.0							
7.		0.0	0.0							
8.		0.0	0.0							
9.		0.0	0.0							
10.		0.0	0.0							
11.	Total parenting overnights (total the number of overnights each parent spends with joint child(ren))	300.0	430.0	730.0						
12.	Multiply 365 by the total number of joint children			730						
13.	Divide total parenting overnights from line 11 Column 1 by the total number of overnights in Column 3 line 12; enter result here (see instructions for converting a decimal to a percentage)	41.10%								
14.	Divide total parenting overnights from line 11 Column 2 by the total number of overnights in Column 3 line 12; enter result here (see instructions for converting a decimal to a percentage)		58.90%							
<p>15. Percentage of Parenting Time for Parenting Time Credit (Enter the name of the parent with the greater percentage of overnights from line 13 or 14, and their associated percentage of overnights under "Parent A". Enter the name of the parent with the lesser percentage of overnights from line 13 or 14, and their associated percentage of overnights under "Parent B". If the parties have equal parenting time, either party may be entered as Parent A or Parent B. Transfer this information to CSCW, Parent A and Parent B).</p> <table border="0" style="width: 100%;"> <tr> <td></td> <td align="right">Percentage Overnights</td> </tr> <tr> <td>Parent A <u>Mary Jones</u> (Parent with greater percentage of overnights)</td> <td align="right"><u>58.90%</u></td> </tr> <tr> <td>Parent B <u>John Jones</u> (Parent with lesser percentage of overnights)</td> <td align="right"><u>41.10%</u></td> </tr> </table>						Percentage Overnights	Parent A <u>Mary Jones</u> (Parent with greater percentage of overnights)	<u>58.90%</u>	Parent B <u>John Jones</u> (Parent with lesser percentage of overnights)	<u>41.10%</u>
	Percentage Overnights									
Parent A <u>Mary Jones</u> (Parent with greater percentage of overnights)	<u>58.90%</u>									
Parent B <u>John Jones</u> (Parent with lesser percentage of overnights)	<u>41.10%</u>									
<p>*If there are more than 10 children, compute on a separate sheet of paper</p> <p>Comments:</p>
